Report: Tuesday 21 April, 2026

Match: Brighton vs Chelsea

Date: Tuesday, 21 April 2026 Time: 20:00 (BST)

Competition: English Premier League

Venue: American Express Community Stadium, Falmer

Correct Score Predictions

1-0 @ 13.50

Rationale:

✓ Brighton are the more stable side coming into this match, with a strong home record and positive recent momentum.

✓ Chelsea arrive on the back of four straight league defeats without scoring, which strongly supports a Brighton win-to-nil angle.

✓ Brighton concede just 1.06 goals per home match, while Chelsea's current attacking output is significantly below their season average.

III A 1-0 result fits the main FTR position well: Brighton as the value side, with Chelsea's short-term attacking issues keeping the total down.

2-0 @ 18.00

Rationale:

✓ Brighton average 1.50 goals scored per home match and face a Chelsea side conceding regularly away from home.

✓ Brighton have already beaten Chelsea convincingly this season, and the matchup has recently suited the home side.

✓ If Brighton take the lead, the game could become controlled rather than open, limiting Chelsea's chances of recovery.

▣ A 2-0 result reflects Brighton's stronger structure and Chelsea's lack of cutting edge, while remaining aligned with the home-win angle.

2-1 @ 11.50

Rationale:

✓ This acts as the main cover score if Chelsea's underlying away attacking numbers still translate despite recent struggles.

✓ Both teams show a strong BTTTS profile in their home/away splits, so Chelsea finding a single goal remains plausible.

✓ Brighton's overall stability and home advantage still give them the edge even in a slightly more open game state.

▣ A 2-1 result balances Brighton's stronger match position with Chelsea's residual attacking threat.

💰 Stake Allocation

□ point divided between selections for optimal risk distribution.

⚖️ Optional: Use proportional staking for equalized profit targeting.
