Correct Score Predictions

0–1 @ 10.00 — Espanyol Win

Rationale:

- Málaga remain winless after seven league matches (W0 D3 L4), scoring just three goals.
- The hosts have failed to score in four of seven fixtures, averaging only 0.43 goals per match.
- Espanyol average 1.43 goals per fixture, significantly outperforming Málaga offensively.
- Málaga's home xG of approximately 1.03 suggests limited attacking potential.

■ A 0–1 Espanyol victory is a strong selection, reflecting the visitors' attacking advantage and Málaga's difficulties converting opportunities.

0–2 @ 15.50 — Espanyol Win

Rationale:

- Málaga have conceded 12 goals in seven league matches, averaging 1.71 per fixture.
- Their overall xGA of approximately 1.72 highlights continued defensive vulnerabilities.
- Espanyol have scored ten league goals compared with Málaga's three.
- Espanyol have already demonstrated their ability to win away from home, defeating Osasuna 2–0.

III A 0–2 result provides a higher-return alternative, reflecting Espanyol's superior attacking productivity and Málaga's vulnerability defensively.

1–1 @ 7.00 — Draw

Rationale:

- Málaga have drawn three of their seven league matches, including two of their three home fixtures.
- Espanyol have conceded ten goals in seven matches, highlighting defensive inconsistency.
- Málaga's home performances have been more competitive, with two draws and one defeat.
- Espanyol's inconsistent results leave open the possibility of the hosts securing another point.

III A 1–1 draw provides a credible alternative to an Espanyol victory, reflecting Málaga's tendency towards home draws. It also aligns with the PGX5 Espanyol DNB selection, where a draw returns the stake.
